

CROWN LED GARDEN LIGHT

NLG-LED-026

Crown LED Garden Lights are a premium choice for outdoor garden lighting. As a manufacturer based in China, we offer a high-quality product that is designed with durability, efficiency, and style in mind. Our LED garden lights are a perfect solution for merchants who are looking to enhance the beauty of their outdoor spaces while also achieving energy savings and reducing carbon emissions.

Application:

Walkways

Parks / Gardens

Car parks

Prestigious

Retail

Amenity

Features:

1. Energy Efficiency

One of the most significant benefits of the Crown LED Garden Lights is their energy efficiency. Compared to traditional garden lights, LED lights consume up to 80% less energy, making them a wise choice for merchants who want to reduce their energy costs and contribute to environmental sustainability. Our LEDs are designed with advanced technology that ensures maximum light output while minimizing energy consumption.

2. Long-lasting Performance

LED lights are known for their longevity, and the Crown LED Garden Lights are no exception. Our lights have a lifespan of over 50,000 hours or more, which means that they can last up to five times longer than traditional garden lights. This translates to reduced maintenance and replacement costs for merchants, which can be a significant advantage in terms of profitability.

3. High-Performance Illumination

Our LED Garden Lights are designed for maximum illumination, allowing merchants to create a stunning outdoor ambiance. Our products emit bright, white light that is perfect for illuminating pathways, walkways, and other outdoor areas. We offer different lighting options to best fit the various needs of our clients.

4. Durable Design

Crown LED Garden Lights are built to last, with a durable design that can withstand all weather conditions. Our products are made of high-quality materials and are designed to withstand extreme temperatures, heavy rain, and harsh winds. The lights are water-resistant, ensuring that they remain functional even in the midst of inclement weather.

5. Versatile Application

Our LED Garden Lights are versatile and can be used in a variety of outdoor spaces, including gardens, parks, patio areas, and walkways. The design and color of the lights add a touch of elegance to any outdoor space, making it an attractive focal point for merchants' businesses while also adding to the aesthetics of their clients' properties.

6. Easy to install

Our LED Garden Lights are easy to install as they come with a user-friendly installation process. All merchants need to do is attach the lights to a suitable location and connect them to the power source. The products come with a detailed instruction manual that guides the clients through the process, making the process hassle-free and convenient.

Product Details

NLG-LED-026 is a crown led garden lights, It's IP65 & IK08 rated.

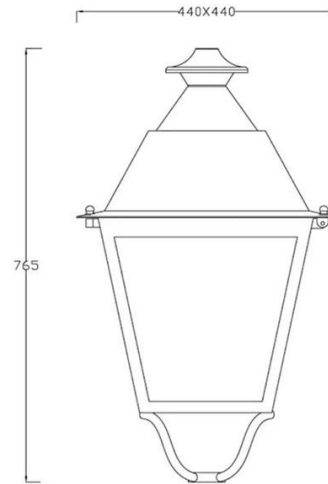

Aerodynamic housing made of extruded aluminum provides high heat dissipation.

State of the art IP67 driver, CE approved.
